

CSCI1100, Fall 2011
Term Project

Objectives: You are required to build a personal website (at least 10 pages) to **introduce yourself** to “the world”.

Requirements: This project will be carried out in two phases:

Phase 1: (worth 30 points) due on **Oct. 17, 2011**

+ Consult some of the websites on the web.

+ Design your website layout on paper using diagrams and flow-charts. **Details of everything to be appeared in your webpage must be included** (this includes the organization of all pages, the layout of each page, the detailed content on each page, and the color, the font, etc.).

Phase 2: Build your website using HTML and have it available to view from the Internet (worth 70 points due on **Nov. 29, 2011**. Name your entry page **index.html** and upload all the files into your web-space)

Phase 2 note: Consider yourself as a contractor staying on the other side of the globe. You are contracted to complete a website for a client, and you are given the design, the flow and all needed data for the website as in phase I. **Do not make any assumption about the client so as their intention.** Your product should be as close as possible to the given information (**and exact for the content**), otherwise, the client may reject your work and you'll never get paid (i.e. your points)

Below is the grading scale for phase II

- + Similarity of the product and the given design and data (15pts)
- + Syntax (15 pts)
- + Presentation (20 pts)
- + Clarity (10 pts)
- + Complexity and artistic (10 pts)

Submission: for **every submission, turn in a portfolio containing your previous and current work on the project.**

Your grading will be based on the completeness and logic of your data collection, design and presentation. More details will

To access your web-space:
